BIO:

Lydia Dustin is known for her ability to perceive the energy of people (living & in spirit), places, and things.

She is like a real-life Harry Potter; a wizard raised by Muggles. Lydia was adopted as a baby by two skeptical college English professors and raised in a strict traditional Irish Catholic family. Unbeknownst to her adopted parents Her biological family were psychics, witches, and folk healers, their gifts and traditions going back generations in the mystical islands of Santa Maria and San Miguel in the Azores.

Later in life Lydia opened to her gifts while training to be a healer at the Rhys Thomas institute of Energy Medicine. She went on to hone her psychic abilities and study Reiki with her mentor Lisa Campion. Now as a Master Reiki and Energy Healer, Lydia's brings two worlds together into a unique psychic healing experience that is powerfully mystical, yet comfortable – and always entertaining. Lydia reads Tarot cards, pictures, objects, spaces, and the energy of anyone alive or in spirit.
